

COURSE DESCRIPTION:

ISO 55000 for Managers: Developing the Strategic Asset Management Plan

The strategic asset management plan (SAMP) is “used to develop the asset management plan(s), which should set out the asset level activities” (55002-4.1.1.2).

In this 2-day private workshop, participants will use the asset management policy created in the ISO 55000 for Leaders workshop to build the Strategic Asset Management Plan (SAMP) and the project plan for creating the underlying asset management plans. The asset management policy outlines the principles by which the organization will apply asset management to achieve its overall organizational objectives.

The SAMP will outline the approach the organization will take to implement these principles. Developing the SAMP should reflect an assessment of stakeholders, demonstrate alignment with organizational goals, and document the processes for asset-related decision making.

Learn How to:

- Describe the clauses of the ISO 55000 standard
- Identify the benefits of the ISO 55000 standard
- Apply an Asset Management Policy
- Develop a Strategic Asset Management Plan (SAMP)
- Create a project master plan for individual asset management plans

In this course you will cover two of the four components of the asset management system.

What Our Students Are Saying:

“As expected, the content provided by the Life Cycle Institute was fantastic! The facilitators were outstanding and the class was well worth my time.”

- Tom Whitehouse, Facility Supervisor, Nestle

Who Should Attend:

This workshop is designed for leaders who are implementing an ISO 55000 initiative. This should include middle managers from across the organization. Typical titles include operations managers, maintenance managers, reliability engineers, capital project engineers, asset owners, asset managers, organizational development and quality managers.

Course Information:

2-day, private course

All students completing a class at the Life Cycle Institute will receive a certificate of completion awarding 1.4 CEU's.
